Allowable Subject Matter

1. Claims 1-11, 20-26 and 32-44 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Although the prior art is replete with teachings of hair cutting devices, the prior art does not teach to one of ordinary skill in the art, and in combination with the other limitations of the independent claims, 1, 22 and 33, a hair cutting apparatus comprising a vibrating structure on which an elongate element heated to a temperature capable of cutting hair is mounted.

The instant application is deemed to be directed to a non-obvious improvement over the inventions patented in Pat. Nos. an elongate element heated to a temperature capable of cutting hair. The improvement over US 6,481,104 and FR 2,716,402 comprises an elongate element heated to a temperature capable of cutting hair. With respect to US 6,481,104 and FR 2,716,402, in the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art to eliminate the blade, replacing it with an elongate element heated to a temperature capable of cutting hair. Further, one of ordinary skill would not find motivation in the prior art to modify the device patented in Pat. No. US 6,481,104 and FR 2,716,402 to include an elongate element heated to a temperature capable of cutting hair

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
